PROFILE

Creative and detail-oriented Web & App Developer with a passion for building modern, responsive, and user-centered digital experiences.

I combine design thinking with clean code to help brands and businesses establish a strong online presence that drives results. Skilled in front-end development, WordPress, UI/UX design, and graphic design with a focus on performance, functionality and aesthetics.

WORK EXPERIENCE

FOUNDER & LEAD DESIGNER

Masta Designs | 2020 – Present

- Lead web and app development projects from concept to launch.
- Design modern, responsive websites and intuitive user interfaces.
- Develop custom WordPress websites using Elementor & WooCommerce.
- Create brand identities, marketing materials, and digital assets.
- Manage client communication, project timelines and technical strategies.
- Ensure high quality, performance and client satisfaction on all projects.

SELECTED PROJECTS

Hawkeye Security Limited | Security Company Website

Developed a professional corporate website with service showcase, contact solutions and inquiry forms. Optimized for performance and SEO.

Elite Estate Finder | Real Estate Investment Platform

Built a modern real estate investment platform with property listings, services presentation and lead generation features.

Fourth Circle Attorneys | Law Firm Website

Designed and developed a clean, responsive website to represent the firm's professionalism and core legal services.

BITHAVEN | Crypto Investment Platform

Designed and developed a modern crypto investment website with plans, features, and user-friendly interface.

GlamCharm | Beauty Brand Website

Created a beautiful e-commerce website for a beauty brand with product showcase, categories and seamless shopping experience.

SwiftExpress | Courier & Logistics Platform

Designed a courier services website with tracking integration, service pages and customer inquiry system.
